

GAF High Solids Silicone: Stand up to ponding water.

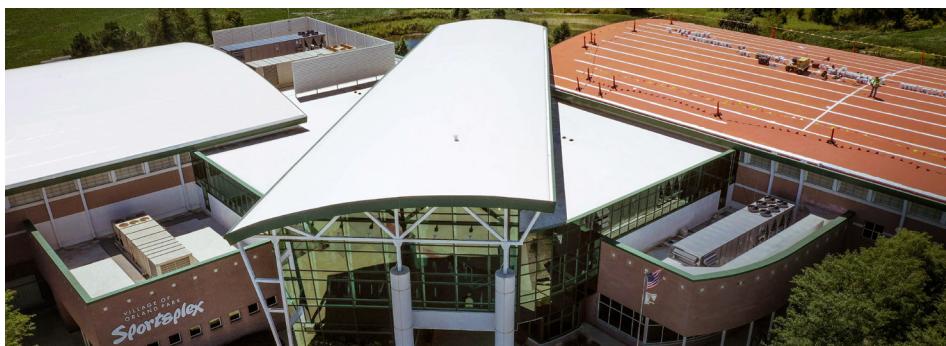

Why tear off your roof? Restore it.

Tearing off a roof can be expensive and inconvenient. Before you commit to a full reroof, consider adding up to 20 years of useful life to your structurally sound roof, along with excellent protection against leaks due to ponding water, by **restoring** your roof with GAF High Solids Silicone Coating — a moisture-cure coating that protects against the damaging effects of weather elements and UV rays.

Save time, hassle, and money. Give your building a seamless, recoatable roof surface that will last for years to come.

Convenience and Durability:

- Low-VOC GAF High Solids Silicone can be installed with little interruption to business, at temperatures as low as 35°F
- Stands up to ponding water — the nemesis of many other roofing surfaces
- Easy-to-apply by spray, roller, or brush
- Available in highly reflective white[‡]
- Silicone elastomers maintain properties in extreme temperatures
- Creates seamless protection over most common roofing substrates including metal, TPO, PVC, Hypalon®, EPDM, smooth and granulated asphaltic, structural concrete, SPF, and previously coated roofs
- High build application, with 97% average solids by volume, can be applied in a single coat with no pinholes or mud-cracking
- NDL guarantees up to 20 years are available[§]

Two coats of GAF High Solids Silicone Roof Coating System over a base coat of GAF Multi-Purpose Primer preserved the integrity of the acoustic Orland Sports Park roof.

Orland Sports Park
Project Profile

Approvals:

- Meets ASTM D6694
- CRRC Rated (white only)
- Classified by UL in accordance with ANSI/UL 790^{*}
- Miami-Dade County Product Control Approved
- FM Approved[†]

^{*} Refer to UL Product IQ for actual assemblies.

[†] Refer to FM RoofNav for actual assemblies.

[‡] Energy cost savings are not guaranteed and the amount of savings may vary based on climate zone, utility rates, radiative properties of roofing products, insulation levels, HVAC equipment efficiency, and other factors.

[§] For qualified systems only. Additional requirements apply. Contact GAF for more information.
